1) An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ann Kornbau on 12/27/2005.

The application has been amended as follows:

Non-elected claims 3 and 4 are cancelled.

2) The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is that the cited prior art does not show a method for making a sheet electrode that includes making the sheet composed of materials claimed, passing the sheet between rollers by drawing the sheet under a predetermined tension and controlling the width of the sheet by an edge controller, winding the sheet onto a winding section under a predetermined pressure and a predetermined speed to a rolling side drive roller located adjacent to the winding section (claim 5).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
